Lagos | Nigeria

EDUCATION

UNIVERSITY OF LAGOS   **LAGOS, NG**
Diploma in Computer Science   *SEP 2023 - SEP 2027*

CODE LEARNERS HUB   **ABEOKUTA, NG**
Diploma in Full Stack Software Engineering   *JAN 2021– DEC 2021*
Relevant Coursework: **.Net, .Net Core, DBMS, DevOps, Cloud Compute, Version Control**

PROFESSIONAL EXPERIENCE

SYSBEAMS   **LAGOS, NG**
FULLSTACK DEVELOPER ASSOCIATE   *NOV 2022 – SEP 2023*

- Developed and implemented a streamlined back-end solutions in C# and the .NET framework, achieving a remarkable 30% reduction in response time.

- Collaborated seamlessly with cross-functional teams to architect and deploy highly scalable RESTful APIs, resulting in a substantial enhancement of overall application performance and scalability.

- Conducted rigorous code reviews and instituted best practices, ensuring the establishment of a high-quality and easily maintainable code base.

- Optimized database queries and refined data processing algorithms, resulting in a notable 20% decrease in server load and substantial improvements in system performance.

- Demonstrated expertise in achieving scalability and optimal performance for the CALEB UNIVERSITY Portal project, contributing to the project's success.

- Provided robust support for an event management application, implementing the Onion Architectural pattern, Domain Driven Design Pattern, and the Specification Pattern within the framework of DDD.

SYSBEAMS   **ABEOKUTA, NG**
DOTNET ENGINEER INTERN   *MAR 2022 – NOV 2022*

As an intern at Sysbeams, I collaborated closely with senior developers to build, deploy, and maintain .NET applications. I actively contributed to the development of two key applications. I also distinguished myself as a proactive problem solver, collaborating closely with my team to address both technical and non-technical challenges. In addition to my development responsibilities, I played a pivotal role in supporting and guiding new team members.

- Spearheaded my team with the optimization of the registration process for thousands of people, implementing a one-time click registration feature. Leveraged an existing database and API to streamline user registration for events.

- Led the implementation of a complex algorithm for QR code generation, ensuring secure and unique identifiers for event participants

- Played a key role in building the client-side of an activity report management application using the Blazor framework, contributing to a responsive and user-friendly interface.

- Achived well structured pagination functionality for a list of report types, enhancing the accessibility and organization of monthly activity reports.

- Acted as a mentor and resource for those navigating their initial experiences in the technology sector.

My role extended beyond conventional development tasks, reflecting my commitment to fostering a collaborative and supportive work environment at Sysbeams.

EXTRA CURRICULAR EXPERIENCES

HACKERRANK   OCT *2021*
PROBLEM SOLVING SKILLS CODE CHALLENGE

JAMIA TUL-MUBASHIRIN   **OGUN, NG**
SPORT FIESTA   JUN 2016

- Best captain award of the tournament in various sport event

SKILLS

- C# (.NET/Core, .NET MAUI)
- ASP .NET MVC
- WEB API
- Blazor
- Entity Framework Core
- Dapper
- Version Control (Git)
- Database Management (Postgress, MySql, Microsoft Sql Server)
- Cloud Computing
- CSS/Bootstrap
- HTML
- Effective Collaboration

CERTIFICATIONS

- Certified at Code Learners Hub as a DOTNET ENGINEER
- Obtained Hackerrank Certification on C#
- Obtained Hackerrank Gold batch in the competitive problem solving skills
